DOUZIÈME CONGRÈS DES GRANDS BARRAGES

MEXICO 1976

Question n° 45

La recherche des fuites et le drainage des barrages et de leur fondation

Objet :

- a) Détermination de l'origine et de l'importance des fuites.
- b) Analyse de l'évolution des fuites et des infiltrations et leur interprétation, en particulier en tenant compte de l'influence du barrage.
- c) Conséquences pour la sécurité et l'exploitation du barrage.
- d) Projet des systèmes de drainage.
- e) Auscultation et entretien des systèmes de drainage.

Remarque : On ne traitera pas des injections et procédés similaires.

TWELFTH CONGRESS ON LARGE DAMS

MEXICO CITY, 1976

Question No. 45

Leakage investigations and drainage of dams and their foundations.

Object :

- a) Methods of determining the origin and quantity of leakage.
- b) Analysis of the history of leakage or seepage and interpretation thereof, in particular as affected by the dam.
- c) Significance in relation to the safety of the dam and its operation.
- d) Design of drainage systems.
- e) Monitoring and maintaining drainage systems.

Note : Discussion of grouting and similar remedial measures are not to be included.
