LES COMPTES RENDUS
DU HUITIÈME CONGRÈS INTERNATIONAL
DES GRANDS BARRAGES

THE TRANSACTIONS
OF THE EIGHTH INTERNATIONAL CONGRESS
ON LARGE DAMS

COMMISSION INTERNATIONALE
DES GRANDS BARRAGES

de la Conférence Mondiale de l'Énergie

Bureau Central :

51, rue Saint-Georges, Paris-9^e

INTERNATIONAL COMMISSION
ON LARGE DAMS

of the World Power Conference

Central Office :

51, rue Saint-Georges, Paris-9^e

HUITIÈME CONGRÈS INTERNATIONAL DES GRANDS BARRAGES

ÉDIMBOURG, Grande Bretagne

4 - 8 MAI 1964

EIGHTH INTERNATIONAL CONGRESS ON LARGE DAMS

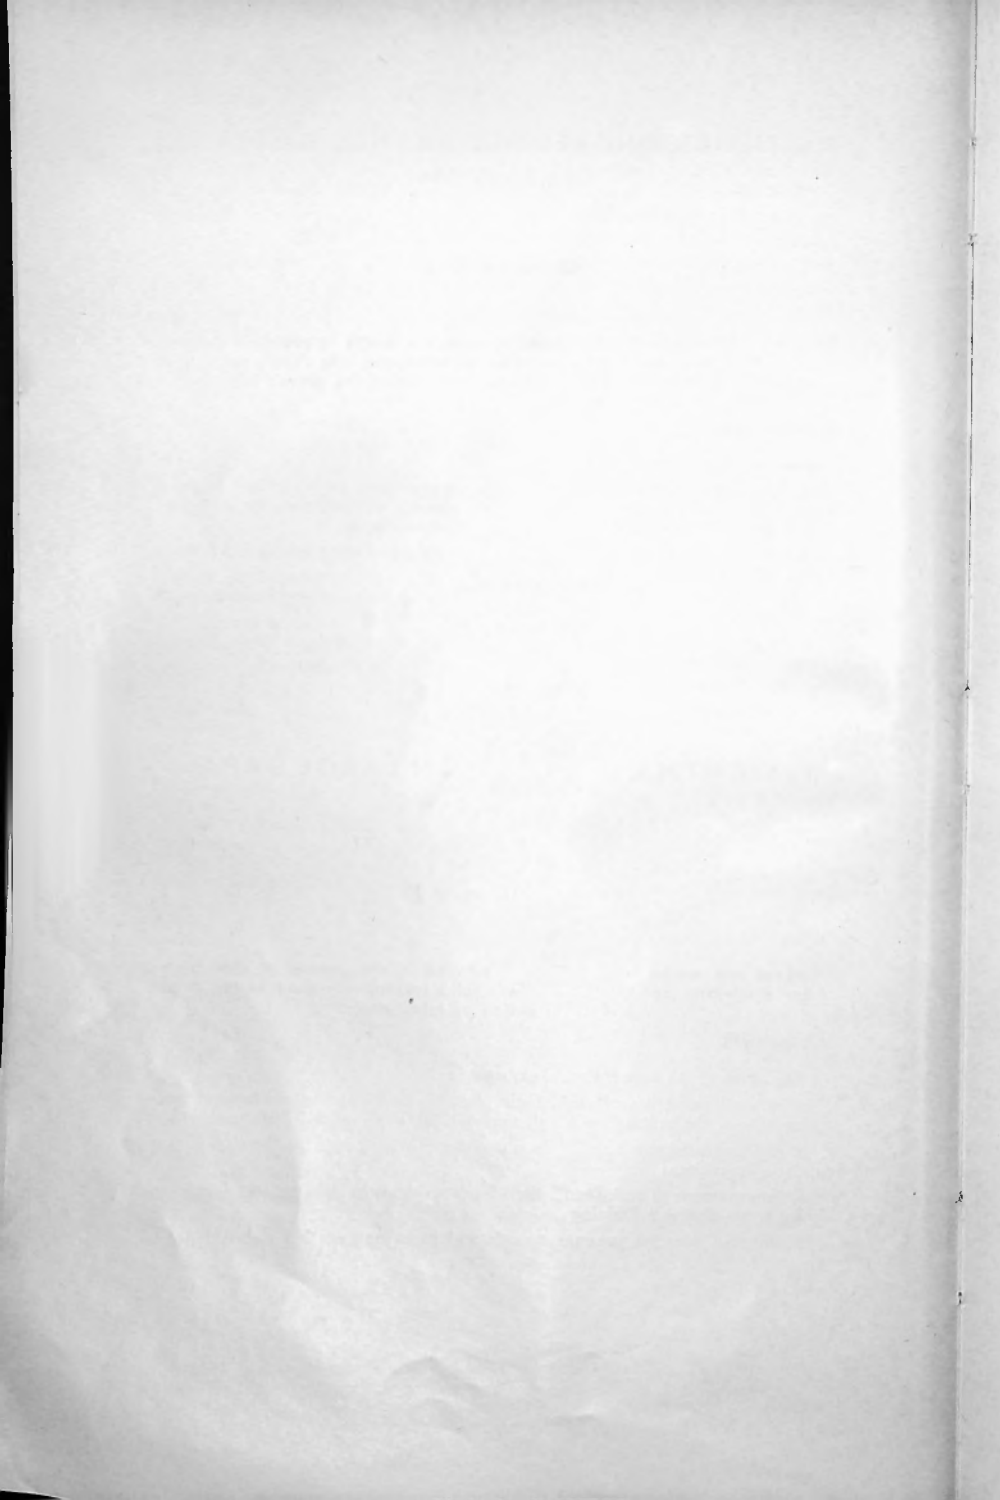

EDINBURGH, Great Britain

4 - 8 MAY 1964

COMPTES RENDUS
TRANSACTIONS

VOLUME I

QUESTION N° 28

Question n° 28

TABLE DES RAPPORTS - INDEX OF PAPERS

		Page
R. 1.	P. P. FOX, A. A. MEYER, J. A. TALOBRE (<i>U.S.A.</i>). Foundations of the Pahlavi dam on the Dez River	1
R. 2.	L. B. UNDERWOOD (<i>U.S.A.</i>). Chalk foundations at four major dams in the Missouri River basin	23
R. 3.	D. THAYER, W. STROPPINI, G. KRUSE (<i>U.S.A.</i>). Properties of rock at underground powerhouse Oroville dam ..	49
R. 4.	C. OKESON (<i>U.S.A.</i>). Geologic requirements of the foundations of large dams	73
R. 5.	L. O. RICE (<i>U.S.A.</i>). In Situ testing of foundation and abutment rock for dams ..	87
R. 6.	D. J. KLUTH (<i>Great Britain</i>). Rock stress measurements in the Jor underground Power station of the Cameron Highlands Hydro-Electric Scheme, Malaya	103
R. 7.	F. FERGUSSON, P. LANCASTER-JONES (<i>Great Britain</i>). Testing the efficiency of grouting operations at dam sites	121
R. 8.	R. G. T. LANE. (<i>Great Britain</i>). Rock foundations. Diagnosis of mechanical properties and treatment	141
R. 9.	A. ROBERTS, I. HAWKES, F. T. WILLIAMS, S.A.F. MURELL (<i>Great Britain</i>). The determination of the strength of rock in situ	167
R. 10.	CONSTRUCTION MINISTRY OF THE JAPANESE GOVERNMENT (<i>Japan</i>). Foundation treatment of Kawamata Dam	187
R. 11.	K. KAWABUCHI (<i>Japan</i>). A study of strain characteristics of a rock foundation	209
R. 12.	M. NOSE (<i>Japan</i>). Rock test in situ, conventional tests on rock properties and design of Kurobegawa No. 4 dam based thereon	219
R. 13.	H. MASUDA (<i>Japan</i>). Utilization of elastic longitudinal wave velocity for determining the elastic property of dam foundations rocks	253

	Page
R. 11. L. OLAGUIBEL, J. FORA et S. MADRIGAL (<i>Espagne</i>). Les travaux de consolidation du terrain de fondation du barrage de la chute de Aldeadavila	273
R. 15. BELLIER, BERNEDE, BOLLO, J. DUFFAUT, PERA, COMES, LAKHSMANAN, P. DUFFAUT, WILLM, MAZENOT, ROGISSART (<i>France</i>). La déformabilité des massifs rocheux, analyse et comparaison des résultats	287
R. 16. A. MAYER, BERNEDE, BOLLO, WILLM et P. DUFFAUT, R. LANGLOIS, BUVAT, COMES, RIVOIRARD (<i>France</i>). Mesure des modules de déformation des massifs rocheux dans les sondages	313
R. 17. BORDET, BELLIER et LONDE, BERNEDE, BERTHIER, FARRAN et THENOZ, HABIB, JACQUIN et P. DUFFAUT (<i>France</i>). Les effets physico-chimiques de l'eau dans les appuis de barrage	329
R. 18. J. DUFFAUT, COMES, BALDY, P. DUFFAUT, TERRASSA, BARBEDETTE, BERNEDE, BOLLO, CAMBEFORT (<i>France</i>). Mesures des qualités mécaniques des massifs rocheux avant et après la consolidation par injection	351
R. 19. G. FAIVRE D'ARCIER, J. CONTE (<i>France</i>). La consolidation des appuis du barrage de Monteynard	377
R. 20. J. A. TALOBRE (<i>France</i>). La mesure in situ des propriétés mécaniques des roches et la sécurité des barrages de grande hauteur	391
R. 21. M. F. BOLLO (<i>France</i>). Résultats de recherches géotechniques sur une série de sites de barrages	405
R. 22. D. J. HENKEL, J. L. KNILL, D. G. LLOYD, A. W. SKEMPTON (<i>Great Britain</i>). Stability of the foundations of Monar Dam	425
R. 23. G. SARMENTO, L. VAZ (<i>Portugal</i>). Problems posed by the foundation ground and their solution Cambambe dam	443
R. 24. K. F. BENKO (<i>Canada</i>). Large scale experimental rock grouting for portage Mountain dam	465
R. 25. C. H. PIGOT, I. D. MacKENZIE (<i>Canada</i>). A method used for an in situ bedrock shear test	495
R. 26. C. L. EMERY (<i>Canada</i>). The strain in rocks in relation to dam foundations	513

	Page
R. 27. A. S. RINGHEIM (<i>Canada</i>). Experiences with the Bearpaw shale at the South Saskatchewan River dam	529
R. 28. P. ARREDI (<i>Italy</i>). Technics for rock characteristics improvement at two dams in central Apennines (Italy)	551
R. 30. Dr P. CAVAZZI, G. CANDIANI (<i>Italie</i>). Influence des déformations de la roche de fondation d'un barrage sur l'écran d'imperméabilisation	571
R. 31. SCALABRINI, CARUGO, GARATI (<i>Italy</i>). Determination in situ of the state of the Frera dam foundation rock by the sonic method, its improvement by consolidation grouting and verification of the result by again using the sonic method	585
R. 32. N. HAST, T. NILSSON (<i>Sweden</i>). Recent rock pressure measurements and their implications for dam building	601
R. 33. HASSELSTROM, L. RAHM, K. SCHERMAN (<i>Sweden</i>). Methods for the determination of the physical and mechanical properties of rock	611
R. 34. A. AASTRUP, S. SALLSTROM (<i>Sweden</i>). Further treatment of problematic rock foundation at Bergeforsen	627
R. 35. G. OBERTI, E. FUMAGALLI (<i>Italie</i>). Propriétés physico-mécaniques des roches d'appui aux grands barrages et leur influence statique documentée par les modèles	637
R. 36. G. CANDIANI, P. GAVAZZI (<i>Italie</i>). Barrage de Ponte Murandin. Imperméabilisation d'un ancien lit colmaté du fleuve Chiese	659
R. 37. C. LOTTI, M. BEAMONTE (<i>Italy</i>). Execution and controls of consolidation works carried out in the foundation rock of an arch gravity dam	671
R. 38. W. BALCERSKI (<i>Pologne</i>). Influence de l'hétérogénéité des roches sur la fondation d'un barrage-poids, en conditions du flysh carpathien	697
R. 39. N. SCHNITTER (<i>Switzerland</i>). Properties and behaviour of the foundation rock at Sufers Arch dam	717
R. 40. M. G. GONZALES, M. F. BOLLO, H. ARGUELLES-FERNANDEZ, J. P. CHANZA (<i>Espagne</i>). Traitement des roches de fondation par injections et son contrôle par la méthode géotechnique	731

	Page
R. 41. L. HOBST (<i>Czechoslovakia</i>). Increasing dam stability by prestressing the soil foundation ..	747
R. 42. M. BILIK (<i>Czechoslovakia</i>). The influence of grouting on flysch rock permeability	757
R. 43. F. W. PATTERSON, J. L. HAYDOCK (<i>Canada</i>). The influence of bedrock structure and lithology in design of the Grand Rapids intake	767
R. 44. M. ROCHA (<i>Portugal</i>). Mechanical behaviour of rock foundations in concrete dams ..	785
R. 45. H. LINK (<i>German Fédéral République</i>). Evaluation of Elasticity Moduli of dam foundation rock determined seismically in comparison to those arrived at statically	833
R. 46. H. J. MARTINI, H. DURBAUM, W. GIESEL, E. HABETEA, H. KLEINSORGE, M. LANGER (<i>German Fédéral République</i>). Methods to determine the physical properties of rock	859
R. 47. L. QUEIROZ (<i>Brazil</i>). Geotechnical properties of weathered rock and behaviour of Furnas rockfill dam	877
R. 48. F. MOOSER (<i>Mexico</i>). A case of exceptional permeability at El Bosque dam	891
R. 49. W. WEYERMANN, J. RODRIGUES GUERRA, H. PINTO CARDOSO (<i>Portugal</i>). Le traitement des failles géologiques dans les fondations de barrages	903
R. 50. E. CLAR, L. MUELLER, F. PACHER, H. PETZNY, W. STEINBECK (<i>Austria</i>). On the practice of foundation rock investigation in Austria ..	927
R. 51. M. A. HACAR, F. MUZAS (<i>Spain</i>). Calculation of the action of anchoring bolts in galleries of circular cross-section	973
R. 52. S. THORODDSEN, H. TOMASSON (<i>Iceland</i>). Dam construction in a geology of bedded basalt lava flows, as elucidated by conditions in Iceland	985
R. 53. J. A. JIMENEZ-SALAS, S. URIEL (<i>Spain</i>). Some recent rock mechanics testing in Spain	995
R. 54. S. A. ROSA, A. FEDORENKO, V. S. ERISTOV, V. TOKACHIROV (<i>U.S.S.R.</i>). Studies of deformation properties of rock foundations of high arch and gravity dams in the U.S.S.R.	1023
R. 55. Z. ZANEV (<i>Bulgaria</i>). The grouting of a stone-masonry dam by cement-sand mortar ..	1041

- R. 56. B. KUJUNDZIC, M. STOJAKOVIC (*Yugoslavia*).
A contribution to the experimental investigation of changes
of mechanical characteristics of rock massives as a function
of depth 1051
- R. 57. C. L. HANDA, Y. K. MURTHY, K. MADHAVAN (*India*).
Treatment of rock foundation for some large dams in India . 1069
- R. 58. P. S. BHATNAGAR, S. R. SHAH (*India*).
Experiments on Bhakra dam foundations 1081
- R. 59. D.G. AIKEN (*Australia*).
Foundation problems at Warragamba dam 1109
