Cambridge '68

BOSTON SOCIETY OF CIVIL ENGINEERS

CONTRIBUTIONS
TO
SOIL MECHANICS

1925-1940

*Including Paper on "Seepage Through Dams", by
A. Casagrande, printed with permission of the
New England Water Works Association*

Published by the Boston Society of Civil Engineers
47 Winter Street
Boston, Mass.

Copyright 1940
Boston Society of Civil Engineers

PRINTINGS

October 1940 2000 copies

August 1941 1000 copies

October 1946 1500 copies

October 1953 1000 copies

June 1959 1000 copies

December 1963 1000 copies

CONTENTS

LIST OF PAPERS ON SOIL MECHANICS FROM JOURNALS OF THE BOSTON SOCIETY OF CIVIL ENGINEERS

	<i>Page</i>
Modern Conceptions Concerning Foundation Engineering. <i>Charles Terzaghi</i> (Dec., 1925)	1
Concrete Roads — A Problem in Foundation Engineering. <i>Charles Terzaghi</i> (May, 1927)	45
Wellpoint Method for Handling Excavation of Foundation Pit at New Sewage Pumping Station, Lynn, Massachusetts. <i>Charles Terzaghi</i> (Sept., 1927) . . .	63
The Structure of Clay and Its Importance in Foundation Engineering. <i>Arthur</i> <i>Casagrande</i> (April, 1932)	72
Mechanics of Hydraulic-Fill Dams. <i>Glennon Gilboy</i> (July, 1934)	127
The Application of Theories of Elasticity and Plasticity to Foundation Problems. <i>Leo Jurgenson</i> (July, 1934)	148
The Shearing Resistance of Soils. <i>Leo Jurgenson</i> (July, 1934)	184
Recent Developments in Soil Testing Apparatus. <i>Philip C. Rutledge</i> (Oct., 1935) .	227
Characteristics of Cohesionless Soils Affecting the Stability of Slopes and Earth Fills. <i>Arthur Casagrande</i> (Jan., 1936)	257
A Fundamental Fallacy in Earth Pressure Computations. <i>Karl Terzaghi</i> (April, 1936)	277
Seepage Through Dams. <i>Arthur Casagrande</i> (June, 1937)*	295
Stability of Earth Slopes. <i>Donald W. Taylor</i> (July, 1937)	337
Plastic State of Stress Around a Deep Well. <i>H. M. Westergaard</i> (Jan., 1940) . .	387
Dynamic Pile Driving Formulas. <i>A. E. Cummings</i> (Jan., 1940)	392

All papers are from Journals of the Boston Society of Civil Engineers except the paper marked *, which is from the Journal of the New England Water Works Association.
