Journal of
**Geotechnical
Engineering**

AMERICAN SOCIETY OF CIVIL ENGINEERS

GEOTECHNICAL ENGINEERING DIVISION

General Information

Journal of Geotechnical Engineering covers the field of soil mechanics and foundations, with special emphasis on the relationship between the geologic environment and man-made works. Computer applications are also examined. Topics include dynamic response of foundations, earth-retaining structures, earth-supported structures, and dam construction and slope stability, as well as soil failures and their solutions.

Journal of Geotechnical Engineering (ISSN 0733-9410) is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, NY 10017-2398. All editorial correspondence should be directed to the Journals Department. Second-class postage is paid at New York, NY, and at additional mailing offices.

Postmaster: Send address changes to *Journal of Geotechnical Engineering*, ASCE, 345 East 47th Street, New York, NY 10017-2398.

Submission of papers. Submit five copies of papers and notes and three copies of discussions to the Journals Department. Maximum length for papers is 10,000 words; for notes, 2,500 words; for discussions, 1,250 words. Multiple submissions are not accepted for review. Indicate division and, if applicable, committee to which material is being submitted. The use of SI units is preferred; if other units are used, SI equivalents must also be given. Write or phone the Journals Department for *ASCE Authors' Guide to Journals, Books, and Reference Publications* for complete instructions for manuscript preparation.

Reprints for authors are ordered prior to publication; others may order them by using the coupon published in *ASCE News* and *ASCE Publications Information* or contacting the Reprint Department, ASCE.

Photocopies. Authorization to photocopy internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by ASCE to libraries and other users registered with the Copyright Clearance Center, (CCC) Transactional Reporting Service, provided that the base fee of \$1.00 per article plus \$.15 per page is paid directly to CCC, 27 Congress Street, Salem, MA 01970. The identification for *Journal of Geotechnical Engineering* is 0733-9410/89 \$1.00 + \$.15. Requests for special permission or bulk copying should be addressed to the Journals Reprint Department, ASCE.

Subscriptions. 1989 rates are \$31.00 for members and \$124.00 for nonmembers. Postage outside the U.S.A. is \$9.00 additional. Single copies are \$12.00. Address all *member* subscription inquiries and correspondence to Member Records, ASCE. Address all *nonmember* inquiries and correspondence to Publications Fulfillment Department, ASCE. Subscriptions are filled for the calendar year and must be prepaid. Notify the appropriate ASCE department of an address change as soon as possible; allow six weeks for it to become effective.

This publication is abstracted in *ASCE Publications Information* (bi-monthly), *Transactions of the ASCE* (annually), and Civil Engineering Database (online), and indexed in *ASCE Annual Combined Index*. Address inquiries to Information Products, ASCE.

The Society is not responsible for any statement made or opinion expressed in its publications.

This journal is printed on an acid-free paper which meets the ANSI requirements for permanence. ♾™

Journal of Geotechnical Engineering

Volume 115 Number 3 March 1989

TECHNICAL PAPERS

- Volume Change Behavior of Vibrated Sand Columns.
Gillian M. Norman-Gregory and Ernest T. Selig289
- Analytical Model for Longitudinal Soil Vibration.
Gillian M. Norman-Gregory and Ernest T. Selig304
- Geotechnical Input to Major Bridge Project.
David John Williams322
- Elastic Buckling of Buried Flexible Tubes—A Review of
Theory and Experiment.
Ian D. Moore340
- Lateral Pile Interaction Factors in Submerged Sand.
Mauricio Ochoa and Michael W. O'Neill359
- Discrete Numerical Model for Soil Mechanics.
**John M. Ting, Brent T. Corkum, Claudia R. Kauffman,
and Carlo Greco**379
- Investigation of Crushed Rock Filters for Dam Embankment.
Chai Huat Khor and Heng Kee Woo399

TECHNICAL NOTE

- Arch in Soil Arching.
Kingsley Harrop-Williams415

DISCUSSIONS

- Lateral Earth Pressure on Retaining Structure with Anchor
Plates. Zu-Kun Hua and C. K. Shen.
By Ashok K. Chugh and John D. Smart423

Elastic Foundation Settlements on Sand Deposits. Joseph E. Bowles.

By John T. Christian and W. David Carrier III.

Closure by author425

Evaluation of Settlements in Sands Due to Earthquake Shaking. Kohji Tokimatsu and H. Bolton Seed.

By David W. Sykora429

Concrete-Face Rockfill Dam: I. Assessment. James L. Sherard and J. Barry Cooke.

By Harry R. Cedergren. Closure by J. Barry Cooke431
