Journal of  
**Geotechnical  
Engineering**

AMERICAN SOCIETY OF CIVIL ENGINEERS

GEOTECHNICAL ENGINEERING DIVISION

## General Information

**Journal of Geotechnical Engineering** covers the broad area of practice known as geotechnical engineering. Papers are welcomed on traditional topics such as foundations, earth-supported structures, soil dynamics, consolidation, engineering behavior of soil and rock, slope stability, dams, and rock engineering. Authors are encouraged to submit papers on newer topics such as environmental geotechnics, geosynthetics, computer modeling, ground-water monitoring and restoration, and coastal and geotechnical ocean engineering. Theoretical papers dealing with geomechanics are welcome, but only if there is a clear and significant potential for practical application, in the present or future, for the theory. Practice-oriented papers and case histories are particularly welcomed and encouraged.

*Journal of Geotechnical Engineering* (ISSN 0733-9410) is published monthly by the American Society of Civil Engineers. Publications office is at 345 East 47th Street, New York, NY 10017-2398. All editorial correspondence should be directed to the Journals Department. Second-class postage is paid at New York, NY, and at additional mailing offices.

**Postmaster:** Send address changes to *Journal of Geotechnical Engineering*, ASCE, 345 East 47th Street, New York, NY 10017-2398.

**Submission of papers.** Submit five copies of papers and notes and three copies of discussions to the Journals Department. Maximum length for papers is 10,000 words; for notes, 3,500 words; for discussions, 2,000 words. Multiple submissions are not accepted for review. Indicate division and, if applicable, committee to which material is being submitted. The primary use of SI units is mandatory. When SI units are used, no other units are required. Units other than SI may also be given in parentheses or in an appendix. Write or phone the Journals Department for *ASCE Authors' Guide to Journals, Books, and Reference Publications* for complete instructions for manuscript preparation.

**Reprints** for authors can be ordered prior to publication using reprint order forms provided by the Editorial Department.

**Photocopies.** Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by ASCE to libraries and other users registered with the Copyright Clearance Center, (CCC) Transactional Reporting Service, provided that the base fee of \$2.00 per article plus \$.25 per page copied is paid directly to CCC, 27 Congress Street, Salem, MA 01970. The identification for *Journal of Geotechnical Engineering* is 0733-9410/94 \$2.00 + \$.25. Requests for special permission or bulk copying should be addressed to the Permissions and Copyright Department, ASCE.

**Subscriptions.** 1994 rates are \$53.00 for members and \$212.00 for nonmembers. Postage outside the U.S.A. is \$28.00 additional. Single copies are \$24.00. Address all *member* subscription inquiries and correspondence to Member Records, ASCE. Address all *nonmember* inquiries and correspondence to Publications Fulfillment Department, ASCE. Subscriptions are filled for the calendar year and must be prepaid. Notify the appropriate ASCE department of an address change as soon as possible; allow six weeks for it to become effective.

**This publication is abstracted** in *ASCE Publications Information* (bi-monthly), *Transactions of the ASCE* (annually), and Civil Engineering Database (on-line), and indexed in *ASCE Annual Combined Index*. Address inquiries to Information Products, ASCE.

The Society is not responsible for any statement made or opinion expressed in its publications.

## TECHNICAL PAPERS

- Seismic Liquefaction Potential Assessed by  
Neural Networks.  
**Anthony T. C. Goh** ..... 1467
- Cyclic Axial Loading of Drilled Shafts in Cohesive Soil.  
**Kevin J. McManus and Fred H. Kulhawy** ..... 1481
- Setup and Relaxation in Glacial Sand.  
**Donald L. York, Walter G. Brusey, Frank M. Clemente,  
and Stephen K. Law** ..... 1498
- Pseudostatic Seismic Stability of Slopes: Design Charts.  
**Dov Leshchinsky and Ka-Ching San** ..... 1514
- Mitigation Measures for Small Structures on Collapsible  
Alluvial Soils.  
**Kyle M. Rollins and G. Wayne Rogers** ..... 1533
- Evaluation of Soil Liquefaction by Energy Principles.  
**J. Ludwig Figueroa, Adel. S. Saada, Liqun Liang,  
and Nitin M. Dahisaria** ..... 1554
- Vibration of Foundations on Incompressible Soils with No  
Elastic Region.  
**Ronaldo I. Borja and Wen-Hwa Wu** ..... 1570
- Discrete-Element Method for Simulating Behavior of  
Cohesive Soil.  
**A. Anandarajah** ..... 1593

## TECHNICAL NOTES

- Approximate Elastic-Plastic Solution for Axially  
Loaded Piles.  
**Ernesto Motta** ..... 1616

Equivalent Diameter of Vertical Drains with an Oblong Cross Section.	
Richard P. Long and Alvaro Covo .....	1625

#### DISCUSSIONS

Seismic Bearing Capacity and Settlements of Foundations. R. Richards Jr., D. G. Elms, and M. Budhu. By G. Fernandez and M. Shahien. By Abdul-Hamid Soubra. Closure by authors .....	1632
Comparison of Rock Correction Methods for Compaction of Clayey Soils. Sandra L. Houston and Kenneth D. Walsh. By Robert W. Day. By T. S. Sikh. Closure by authors .....	1640
Preconsolidation versus Aging Behavior of Kaolinite Clay. G. A. Athanasopoulos. By G. Mesri and M. Shahien. Closure by author .....	1643
Evaluation of In-Place Wetting Using Soil Suction Measurements. Kenneth D. Walsh, William N. Houston, and Sandra L. Houston. By Robert W. Day. Closure by authors .....	1648
