Stress Distributions in Triaxial Compression Samples <i>by William M. Kirkpatrick, Roger K. Seals, and F. Barry Newman</i>	190
Improved Compression Test Technique for Soft Rock <i>by Edwin T. Brown and Louis P. Gonano</i>	196
Sheet Pile Design with Variable Soil Parameters <i>by William D. Kovacs, James H. Martin, and Frank A. Gerig</i>	200

INFORMATION RETRIEVAL

The key words, abstract, and reference "cards" for each article in this Journal represent part of the ASCE participation in the EJC information retrieval plan. The retrieval data are placed herein so that each can be cut out, placed on a 3 × 5 card and given an accession number for the user's file. The accession number is then entered on key word cards so that the user can subsequently match key words to choose the articles he wishes. Details of this program were given in an August, 1962 article in CIVIL ENGINEERING, reprints of which are available on request to ASCE headquarters.
