THE PERUĆA DAM, CROATIA - A REASON  
FOR ADDITIONAL CONSIDERATIONS ON  
DAM SAFETY

## INDEX: SPECIAL LECTURE

### - THE PERUĆA DAM, CROATIA -

- 1 T Megla - A reason for additional considerations on dam safety
- 5 J Rupčić - An overview of the Peruća reservoir and its structures
- 13 M Petričec - Climatological and hydrological data on the catchment area of the Cetina river and the Peruća reservoir
- 21 Z Sever - Effects that would have arisen had the Peruća dam been destroyed
- 31 J Macan - Chronology of events on the Peruća dam from occupation till mining
- 35 M Vilović - The Peruća dam damage after explosion
- 41 V Kuk, D Herak and M Herak - Seismological investigations after the Peruća dam explosion of January 28, 1993
- 47 V Dadić and B Grbec - Measurements of the water flow and temperature in the Peruća reservoir
- 53 A Salković and D Dujmić - Geophysical investigation at the Peruća dam
- 57 E Nonveiller - The Peruća dam after the explosion
- 67 P Grgić - Consequences of the Peruća dam mining as regards electricity supply to the Dalmatia region
